## Stanford University Common Data Set 2010-2011

The Common Data Set Initiative is a collaborative effort between publishers and the educational community to improve the quality and accuracy of information provided to all involved in a student's transition into higher education, as well as to reduce the burden on colleges of compiling and reporting information. Questions and definitions used by the U.S. Department of Education in its college surveys are a guide in the development of CDS items. Common Data Set items undergo broad review by secondary schools and two-and four-year colleges.

H15. If you institution has recently implemented any major financial aid policy, program or initiative to make your institution more affordable to incoming students, such as replacing loans with grants, or waiving costs for families below a certain income, please provide details below:
"Zero Parent Contribution for Parents with Income Below \$60,000
For parents with total annual income below $\$ 60,000$ and typical assets for this income range, Stanford will not expect a parent contribution toward educational costs. Students will still be expected to contribute toward their own expenses from their summer income, parttime work during the school year, and their own savings.

Tuition Charges Covered for Parents with Income Below \$100,000
For parents with total annual income below \$100,000 and typical assets for this income range, the expected parent contribution will be low enough to ensure that all tuition charges are covered with need-based scholarship, federal and state grants, and/or outside scholarship funds.

Families with incomes at higher levels (typically up to $\$ 200,000$ ) may also qualify for assistance, especially if more than one family member is enrolled in college. We encourage any family concerned about the ability to pay for a Stanford education to complete the application process. If we are not able to offer need-based scholarship funds we will recommend available loan programs.

## I. INSTRUCTIONAL FACULTY AND CLASS SIZE

I-1. Please report number of instructional faculty members in each category for Fall 2010. The following definition of instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey. Instructional Faculty is defined as those members of the instructional-research staff whose major regular
assignment is instruction, including those with released time for research. Institutions are asked to EXCLUDE:
(a) instructional faculty in preclinical and clinical medicine
(b) administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status,
(c) undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like
(d) faculty on leave without pay, and
(e) replacement faculty for faculty on sabbatical leave.

Full-time: faculty employed on a full-time basis
Part-time: faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Also includes adjuncts and part-time instructors.
Minority faculty: includes faculty who designate themselves as black, non-Hispanic;
American Indian or Alaskan native; Asian, Native Hawaiian or Pacific Islander; or Hispanic.
Doctorate: includes such degrees as Doctor of Philosophy, Doctor of Education, Doctor of Juridical Science and Doctor of Public Health in any field such as arts, sciences, education, business and public administration. Also includes terminal degrees formerly designated as "first professional," including dentistry, medicine, optometry, osteopathic medicine, pharmacy, podiatric medicine, veterinary medicine, chiropractic or law.
Terminal degree: the highest degree in a field: example, M. Arch (architecture) and MFA (master of fine arts).

|  | Full-time | Part-time | Total |
| ---: | ---: | ---: | ---: |
| Total number of instructional faculty | 1002 | 12 | 1014 |
| Total number who are members of minority groups | 190 | 0 | 190 |
| Total number who are women | 257 | 0 | 257 |
| Total number who are men | 745 | 12 | 757 |
| Total number who are nonresident aliens | 0 | 0 | 0 |
| Total number with doctorate or other terminal degree | 988 | 10 | 998 |
| Total number whose highest degree is <br> a master's but not a terminal master's | 10 | 2 | 12 |
| Total number whose highest degree is a bachelor's | 4 | 0 | 4 |
| Total number whose highest degree is unknown or other | 1 | 0 | 1 |
| Total number in stand-alone graduate/professional | 199 | 1 | 200 |

## I-2. Student to Faculty Ratio

Report the Fall 2010 ratio of full-time equivalent students (full-time plus 1/3 part time) to fulltime equivalent instructional faculty (full time plus 1/3 part time). In the ratio calculations, exclude both faculty and students in stand-alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, or public health in which faculty teach virtually only graduate level students. Do not count undergraduate or graduate student teaching assistants as faculty.

Fall 2010 Student to Faculty ratio: 6 to 1 (based on 6,887 students and 1,109 faculty*)

* Faculty count includes the ranks of professor, associate professor, assistant professor (including parenthetical teaching faculty), instructors, senior lecturers and lecturers. Lecturers, senior lecturers and instructors are counted on an FTE basis.

## I-3. Undergraduate Class Size

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2010 term.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-toone readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-toone readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.
